Bowers & Wilkins

Beautiful Sound

Once installed, Bowers & Wilkins' CT speakers are virtually invisible with a sound that's impossible to ignore. The CT800 and CT700 Series are designed to capture the subtlety of a whisper and the power of an explosion. Learn more about the technological innovations that have taken Bowers & Wilkins almost 50 years to develop and perfect.

Create the thrilling experience of cinema in your own home.

Bring Hollywood Home

To master movie soundtracks, Hollywood often turns to Abbey Road Studios and Skywalker Sound, two of the most advanced recording studios in the world. To ensure quality sound, Skywalker engineers use Bowers & Wilkins loudspeakers in their scoring room. To get as close as possible to the sound as it was actually recorded in the studio, learn how we can install hidden Custom Theatre Speakers such as B&W's CT800 or CT700 Series into your home theater.

Create the thrilling experience of cinema in your own home.
